

Tradelink[®]

To Our Valued Customers,

Fletcher Building has announced intention to commence a sale process for the Tradelink business. This decision represents a genuine opportunity for our business and one that the team and I believe is the right one for the Tradelink business longer term. There is no impact to our people, the way we do business or our ability to service our customers and partner with our suppliers as a result of this sale process.

We have a long term strategy for growth in place and this remains clear and consistent, focussed on our people and customers.

This business has a compelling future and our team and I are excited about what this opportunity represents for us.

Luke Naish

Executive General Manager
